

Hello members of the California Cannabis Advisory Committee, my name is Yamile Rodriguez and im from the Youth Advisory Council in Hayward, Ca

Im writing today to share the perspective of youth on cannabis dispensaries in our community. We're worries about the new dispensary, Phenos Hayward at Foothill Blvd which is near to another dispensary close by.

Having these dispensaries close to each other can have harmful effects on the community. Such as the safety of residents.

A lot of youth seeing these dispensaries close by makes young people see it as something normal.

We want to ask to consider some more spacing between the dispensaries.

Thank you for listening to what we had to say.
