## EMERGENCY DECISION AND ORDER

Pursuant to California Code of Regulations, title 4, section 17815, and article 13 (commencing with section 11460.10) of Chapter 4.5 of Part 1 of Division 3 of Title 2 of the Government Code, the Department of Cannabis Control issues the following Emergency Decision and Order:

The Department of Cannabis Control hereby **SUSPENDS** the license of Event Horizon Technologies, Inc., license number DCC-10004061, (Licensee) and orders Licensee, and owners David Rosenthal, Juan Maroso Marquez, Joseph Mishkin, Jaime Restrepo Mesa, and Kevin Albert, to **CEASE ALL COMMERCIAL CANNABIS ACTIVITY, CEASE ALL MOVEMENT OF CANNABIS GOODS TO AND FROM THE PREMISES, and CEASE ALL SALES OF CANNABIS GOODS**, at the following location or any other location or activity associated with the license, **effective at 5:00 p.m. on May 29, 2025:**

**1110 Bel Arbres Dr.  
Redwood Valley, CA 95470**

This order is based on an immediate danger to the public health, safety, and welfare. Specifically, as set forth in the attached Declaration of David Aumentado, there is evidence of conditions at a licensee's premises that present an immediate risk to worker or public health and safety; that the licensee is engaging in the processing, storage, receiving and transfer of illegal cannabis goods in possession of the Licensee; and that the licensee is engaging in the illegal diversion of cannabis goods. The Department of Cannabis Control has determined that this order is necessary to protect worker or public health and safety; prevent the sale, transfer, or transport of illegal cannabis goods in possession of the Licensee; and to prevent the illegal diversion of cannabis goods, based on the following:

- The licensee was extracting cannabis with a closed-loop system that has not been certified by a California-licensed engineer, in violation of California Code of Regulations, title 4, section 17206.1, subdivision (b).
- The licensee had large quantities of solvents stored on the premises, with one container of solvent visibly leaking. The licensee failed to ensure that solvents and flammable liquids are used in accordance with the requirements of all fire, safety, and building code requirements related to the processing, handling, and storage of the applicable solvent or gas, in violation of California Code of Regulations, title 4, section 17202.1, subdivision (a)(4).

- The licensee had cannabis and cannabis products that were not traceable to their license and had no record of the product being received to the premises in the California Cannabis Track and Trace (CCTT) system. Moreover, the licensee extracted cannabis over multiple days without having reported any of the manufacturing activities in the CCTT system. Additionally, the licensee failed to demonstrate that they were recording in the CCTT system, within 24 hours of occurrence, receipt of cannabis and cannabis products, manufacturing of cannabis or cannabis products, destruction or disposal of cannabis or cannabis products, and other activities related to commercial cannabis activity. The licensee's failure to record such commercial cannabis activities in CCTT is in violation of California Code of Regulations, title 4, section 15049, subdivisions (a)-(e).
- The licensee stored bulk cannabis and cannabis products on the licensed premises without assigned Unique Identifier (UID) package tags affixed to the storage vessels or containers, in violation of California Code of Regulations, title 4, section 15048.5, subdivision (c).
- The licensee failed to establish and implement a written inventory control plan capable of tracking the location and disposition of all cannabis and cannabis products at the licensed premises, in violation of California Code of Regulations, title 4, section 17218, subdivision (a).
- The licensee failed to establish and implement a quality control program to ensure that cannabis products are not adulterated or misbranded, in violation of California Code of Regulations, title 4, section 17208.
- The licensee failed to establish and implement a written product quality plan for each type of product manufactured at the premises that addresses the hazards associated with the premises or the manufacturing process that, if not properly mitigated for, may cause the product to be adulterated or misbranded or may cause the product to fail laboratory testing, in violation of California Code of Regulations, title 4, section 17214, subdivision (a).

These circumstances require immediate action by the Department of Cannabis Control to protect the public health, safety, or welfare, and prevent illegal diversion or inversion of cannabis goods from entering the cannabis market.

While the license is suspended, you must comply with the provisions of California Code of Regulations, title 4, section 17816 and conspicuously and continuously display the Notice of Suspension, provided with this Notice, on the exterior of the premises referenced in this Notice. Failure to comply with this requirement may result in further disciplinary action.

You have the right to be heard before the Director of the Department of Cannabis Control, or her designee, regarding the allegations in the Emergency Decision and Order, prior to the effective date of the Emergency Decision and Order, when practicable. The attached Notice of Emergency Decision and Order provides details on how to request a hearing, as well as a hearing date should one be requested.

Within 10 days after the effective date of the Emergency Decision and Order, the Department will file an Accusation on the charges and allegations set forth in the Emergency Decision and Order. The adjudicative proceedings shall be conducted in accordance with chapter 5 (commencing with Section 11500) of part 1 of division 3 of title 2 of the Government Code.

The Emergency Decision and Order, effective at 5:00 p.m. on May 29, 2025, shall remain in effect until such time as the Accusation has been fully adjudicated or upon issuance of the final decision and order following judicial review if obtained pursuant to Government Code section 11460.80.
